

Membership Number (provided by CAZ)

The Cancer Association of Zimbabwe (CAZ) is a charitable not for profit organisation that aims to assist people after a cancer diagnosis. In order to continue providing for our organization and the needs of those we help, monetary donations are sought through our membership drive annually. Every donation / membership subscription that is made brings us that much closer to meeting the needs of everyone that comes to us for help, therefore, our members and those who donate are a vital lifeline.

In order to meet our goals, we are asking generous individuals and organizations to help us through membership fees and or donations. The donations you make are more than just money, they provide patients and families with the hope they need to travel their cancer journey, and our charity the ability to help more people in need.
